## WORK EXPERIENCE

PRESENT

**Senior Software Developer** . 1 yrs 4 mos

**Amadeh Laziz** . Iran. Tehran . Tehran

JAN 2022

At Amadehlaziz, I played a crucial role in developing and providing software solutions to address business problems. Some of my key responsibilities and activities included:

- Collaborating with non-technical departments to provide expert guidance on software-related matters and identify areas for improvement.

- Leading the recruitment and hiring of skilled software developers and talented individuals, ensuring that the team was fully staffed with top talent.

- Developing and implementing a range of software solutions, including a phone extension management system, an asset management system, and an online booking and ordering platform for the corporation's cafe shop.

- Designing and developing survey forms to conduct market research and gather critical data to inform business decisions.

- Collaborated with a team to utilize Camunda BPM to streamline and automate enterprise process management, resulting in increased efficiency and cost savings for the company.

- Spearheading website development efforts, creating intuitive and user-friendly interfaces to enhance the user experience.

Overall, my experience at Amadehlaziz developed my understanding of software development and project management in a large corporate setting, and honed my ability to collaborate with diverse teams to achieve common goals.

## about me

Hey there!

I'm a Software Developer with 3+ years of experience in Front-End tech like TypeScript, React, and Next.js. I've worked with big corps, global clients, and agencies on some pretty cool projects.

I enjoy problem-solving, learning new things, and nothing beats a hot cup of coffee to keep me going.

Thanks for checking out my profile!
